

UniLink
Data Systems Pty. Ltd.

PARTNERLINK PROGRAM

UniLink's PartnerLink program is built on the knowledge that partnering with us provides demonstrable benefits to customers and competitive advantages for vendors. UniLink works with its customers to solve their payment, reconciliation and customer service issues.

PARTNERSHIPS AT WORK FOR YOU

With over 25 years experience, UniLink is a leading provider of end to end commerce solutions. OneStopSecure is a hosted, integrated payment and receipting platform that 'centralises commerce'. It uses innovative technology and a flexible platform to provide a secure, PCI DSS compliant environment to take payments anywhere, anytime. We provide our customers with a centralised place for payment enquiries, reporting, reconciliation and integration, including the ability to validate and post payments to any system.

UniLink's PartnerLink program provides you with the opportunity to join with us and leverage opportunities to assist both our customer and yours. Today, payments in organisations rarely just come from one source. Seamless integration allows Universities, TAFE colleges, Schools, Government and Healthcare organisations to reduce time spent on reconciliation and improve their customer service.

- ✓ Leveraging Integration
- ✓ Improved Reconciliation
- ✓ Improved Reporting
- ✓ Reduced PCI Exposure
- ✓ Our Experience
- ✓ Flexibility
- ✓ Innovation
- ✓ Our Collaborative Approach
- ✓ Global Reach
- ✓ Dedicated Teams
